

Australia Post - Connectivity - Universal USB Impulse Bin Divider

Important installation instructions – Read before use.

This unit is designed to suit all versions of the timber Impulse bins supplied between 2001 and 2019

Important !!

The acrylic units supplied have a perforated snap off section on all edges.

Do not snap these features off until you have established which way the timber base fits into your impulse bin.

- Step 1.** Unwrap your package and carefully remove all white face protection from the acrylic components.
- Step 2.** Read all material including these instructions carefully.
- Step 3.** Remove all existing stock from your impulse bin and ensure that existing timber base clear of all debris.
- Step 4.** Adjust the height of the existing timber insert to endure that it is at least 18cm below the top edge of the bin.
- Step 5.** Place the timber panel supplied as part of your kit into the bin and rotate to either of the positions shown in Fig 1. & Fig 2. It should be a snug fit and not able to slide around freely.
- Step 6** If the position of the timber base matches the S2001 orientation shown in Fig 1. then you will need to “Snap off” the small acrylic tabs on all 4 sides of the acrylic unit. If it matches the orientation shown in Fig 2. then no modification of the acrylics components is required. – DO NOT SNAP OFF THE ACRYLIC TABS UNTIL YOU ARE COMPLETELY SURE WHICH STYLE OF BIN YOU HAVE.
- Step 7.** Locate the “Acrylic Cross Support” and insert the tabs on the base into the slots in the “MDF Timber base” as shown Fig 3,4&5
- Step 8.** Gently slide the Acrylic ticket holder at right angles to the Acrylic cross support as shown in Fig 3. & Fig 4 & Fig 5
